

Suction disc DSMH2 1200 Overhang

Powerful vacuum cleaner with traverse and counterweights

DSMH2 1200 Overhang

Order No.: 103339

DIN EN 13155

- » Lifting capacity max. 1200 kg
- » 2,8 m overhang
- » 2 independent vacuum circuits with twofold reliability through vacuum storage tanks
- » Motorized turning 360°
- » Hydraulic tilting 90°
- » Off-grid motor with 12 volts rechargeable battery
- » Cable or wireless remote control for the adjustment of the counterweight
- » Integrated measuring instruments to monitor the vacuum and the energy supply

TECHNICAL DATA	
Lifting capacity	1.200 kg vertical 1.200 kg horizontal
Vacuum cups	16 piece; Ø 330 mm
Tare weight	3.500 kg Vacuum unit + traverse 2.000 kg Counterweight 1.500 kg
Wheel size	max. 2.000 x 3.000 mm (L x W)
Widening	max. 2.000 x 5.000 mm (L x W)
Vacuum system	2-circuit-system
Drive	battery 12 V
Operating time	8h
Operating temp.	-1° C to +35° C
